

Ocean Optics Educational Grant Application

All grant applicants must complete the application. The form must be signed by the Principal Investigator or Submitting Instructor and an authorized official of the educational organization. Submit forms via fax (+1 727.733.3962) or to Education@oceanoptics.com. Mail forms to Ocean Optics, Educational Products Division, 830 Douglas Ave., Dunedin, FL 34698.

Specific items required for each program are outlined here:

Program A: Funding toward proposals for extramural funds for purchasing science equipment

- A copy of the solicitation and instructions for the grant being prepared (e.g., copy of the proposal being submitted to NSF or similar body)
- A detailed list of the Ocean Optics equipment for which cost sharing is requested

Ocean Optics will evaluate the merits and applicability of the proposal, calculate the available funding discount and provide a signed support letter for your proposal. The applicant agrees to furnish a signed copy of the grant proposal that is submitted.

Program B: Funding for purchasing science equipment to develop science and engineering curricula

- A list of equipment for which cost sharing is requested
- A proposal that provides a short description of the proposed development for each curricular unit including these elements:
 - Title
 - Brief description of the experiment or demonstration including what makes it unique
 - Expected educational outcome or benefit
 - Proposed methods and materials
 - Technical challenges to successful implementation
 - Special optics, materials or other devices required

Applicants agree to furnish, as deliverables, both paper copies and electronic files of curriculum materials suitable for posting at OceanOptics.com. The information should be sufficient to allow other educators to use the curriculum.

Grant requests will be judged by the uniqueness and practicality of the proposed experiments, as well as their usefulness for instructional purposes. Ocean Optics is willing to offer guidance and design assistance for any additional sample handling or optical devices that may be needed for unique experiments.

Questions?

Applicants are encouraged to contact Ocean Optics at +1 727.733.2447 or Education@OceanOptics.com regarding any aspect of the grant programs. Or visit <http://www.oceanoptics.com/corporate/grantprogram.asp> for details.

Ocean Optics Educational Grant Application FORM 1

Please complete this form and attach supporting materials separately.

Section I. General Information

Principal Investigator/Submitting Instructor:

Date: _____

School: _____

Department: _____

Address: _____

Address 2: _____

City, State, Zip: _____

Phone: (____) _____

Fax: (____) _____

E-mail: _____

Web address: _____

Section II. Program Selection

Program A. Name of grant program for which matching funds are sought

Program B. Proposal title

Section III. Demographic Data

Class(es) taught: _____

Current instrumentation: _____

Average size of class: _____

How many systems are you requesting? _____

Grant Application Certification and Approval

We, the undersigned, acknowledge and certify that all the information provided is accurate. If a grant is awarded to us, we agree to abide by the requirement to provide at no cost to Ocean Optics the applicable sample curricula, experiment instructions and technical reports for posting on the Ocean Optics website.
